### \*\*OPENING\*\*

Facilities Support, this is Agent Thompson. How can I help you today?

Daniel Smith, Grocery Manager at the Waldron Way store in Big Rapids. Hi, how's it going?

Oh, hi Daniel! I'm doin' alright, thanks for askin'. What brings you to call us today?

Not too bad, just a little frustrated with one of our checkout scales.

### \*\*PROBLEM DESCRIPTION\*\*

So, we've got a checkout scale that's on the fritz. It's not weighin' items correctly, and it's causin' some delays at the front end. We've tried restartin' it, but no luck. (background noise of store announcements) Sorry, bear with me for a sec... Okay, so like I said, it's just not workin' right. We don't have a vendor involved, it's just our in-house equipment.

Can you tell me more about the error messages you're seein', Daniel? Is it displayin' any codes or just not weighin' at all?

It's just not weighin' at all. No error messages, no nothin'. Just a blank screen. (pause) Oh, wait, I think I just got a customer... (briefly puts caller on hold) Sorry about that. Where was I? Ah yeah, so it's just not functionin' like it should.

Okay, got it. And how long has this been goin' on, Daniel?

### \*\*TROUBLESHOOTING/RESOLUTION\*\*

Alright, I'm gonna go ahead and create a ticket for this issue. That'll be MEI-22330. I'm gonna mark it as high priority since it's affectin' your front end. In the meantime, can you try bypassin' that scale and usin' one of the others? I know it's not ideal, but it'll at least get your customers through.

Yeah, we can do that. But what's the timeline lookin' like for gettin' this fixed? We're gettin' into our busy season, and I don't want this to be a bottleneck.

I completely understand, Daniel. I'm gonna escalate this to our repair team, and we should have someone out to take a look within the next 24 to 48 hours. If it's somethin' that needs to be replaced, we'll get that ordered ASAP.

### \*\*CLOSING\*\*
